ASSEMBLY INSTRUCTIONS FOR 32524

1. Before beginning the assembly, carefully unpack and identify all parts referring to the illustration.
2. Turn power to the installation point **OFF**.
3. Unravel the supply power and ground wires and pass the holes of long rod and fixture loop.
4. Unfold the scroll of fixture body (A) to proper position.
5. Thread long rod into the coupling at center of fixture body.
6. Thread fixture loop onto the top end of long rod.
7. Thread the end of arm into the hole at steel strap of fixture body and line up the hole of arm with the hole of long rod, and secure with ball stud as shown in the diagram.
8. Screw nipple into the coupling at bottom of fixture body.
9. Raise font over the nipple and secure with finial.
10. Attach crystal to the ring of arm, fixture body and finial as shown in the diagram.
11. Install proper bulbs (not provided) to each socket referring to the markings and labels on fixture for maximum wattage.
12. Restore power to the installation point **ON**. Retain this sheet for future reference.
